Lecture - 14
Introduction to the Cisco Packet Tracer Activity for Week 1

So, let us use Cisco Packet Tracer, the network simulator which will allow us to experience how packets flow through a network.

Remember, we were discussing about explaining how a webpage loads to our friends who were not used to computer networks. Do you think this Cisco packet tracer will help them to see what happens behind the screens?

Yes definitely. So, let us go to Cisco packet tracer and see how the packets traverse from your system to the server.
